Reseller

M1 Chip

Apple M1 chip. With great power comes great productivity.

Power up your team's productivity with the Apple® M1 chip, available on the 13-inch MacBook Pro®, MacBook Air®, Mac mini®, and 24-inch iMac®. Not only is the Apple M1 chip up to 3.5x faster than the previous generation — it balances high-performance with efficiency, crushing everyday jobs while using just a tenth of the power. Supercharge your business with Mac® and the Apple M1 chip.

Security and Manageability

Security is built right in.

Mac is the most secure personal computer on the planet, thanks to built-in features like hardware-verified secure boot, on-the-fly encryption, Touch ID®, and Gatekeeper.

Easily configure and manage Mac, all from one place.

With Apple Business Manager, devices can be distributed directly to employees and work brilliantly right out of the box without manual configuration. Whether your business has ten Apple devices or ten thousand, Apple Business Manager makes it easy and secure to manage them all.

Compatibility and Continuity

Apps that supercharge work.

All the business apps needed for productivity and collaboration run beautifully on Mac—from Microsoft 365 and Google Workspace to Zoom and Dropbox. And with the Apple M1 chip, iPhone® and iPad® apps can now run on Mac, too.

Mac and iPhone are made for each other.

With many of the same built-in features and apps, Mac and iPhone also work together seamlessly to boost productivity. Copy and paste across devices. Scan a document straight to your Mac. And pick up calls anywhere.

Apple Financial Services

Finance the Apple devices your team needs.

With Apple Financial Services (AFS) it's easier than ever for customers to bring Apple products into their workplace in a way that is simple and cost-effective to procure, deploy, and support.

The best is even better with the right partner.

You can get even more out of your Apple devices with support from Zones. We provide wide-ranging services to simplify the adoption and integration of Apple devices into your company's environment, including a Readiness Review Assessment and Service Desk for Apple.

ZONES SERVICES

Global Supply Chain as a Service/TSC

Zones can ship IT – anywhere.

If you're ready to support your team members with the devices and expertise they need to do their best work, we're here to help. Ask about Zones' Global Supply Chain as a Service (GSCaaS) and Remote Worker Solution (RWS) offerings to discover how Zones has the tools your team needs to succeed.

When you partner with Zones, you'll get the devices you need, when you need them, without any fuss. Our **Global Supply Chain as a Service (GSCaaS)** is a complete, repeatable shipping and support solution where we assist you every step of the way.

Zones GSCaaS enables clients to outsource every aspect of their IT supply chain, reducing costs, freeing capital, and executing against complex requirements.

Ensuring productivity for your remote teams is our focus. Business is quickly evolving, and companies need to look at new ways to track and manage their devices and keep their users effective and safe.

That's why Zones is proud to offer our award-winning **Remote Worker Solution**. This complete end-to-end solution will help your employees securely collaborate and keep your supply chain streamlined with procurement, asset management, tracking, and protection from any location.
